A dedicated B.E student at Anna university regional campus Madurai, speciallzing in electronics and communication engineering. A highly motivated and detail-oriented engineer with a strong foundation in designing, analyzing, and implementing innovative technical solution. passionate about embedded system, vlsi, and communication system and digital circuits.

SKILLS

- Hardware and platform : Microcontroller 8051, Arduino uno.
- Languages & framework : Python, c, java, MS office, Exel.
- Softs skills : problem solving, Leadership, Critical thinging.
- Design tools : Multi sim, ADS, MAT lab, Microwind.

WORK EXPERIENCE

Intern – Embedded Systems Design

ABC Tech Solutions Pvt. Ltd., Chennai (June 2024 – August 2024)

- Worked on microcontroller-based automation projects using Arduino and PIC.

- Assisted in PCB design, testing, and debugging of prototype circuits.

- Interfaced sensors and communication modules for IoT applications.
- Gained practical experience with tools like Proteus, MATLAB, and Multisim.

PROJECTS

✓ Smart Irrigation System using IoT

Anna University | Jan 2025 – Apr 2025

- Designed an automatic irrigation system that detects soil moisture levels and controls water flow using sensors.
- Used Arduino Uno, DHT11, Soil Moisture Sensor wi-Fi(ESP8266) for automation.
- Implemented a cloud-based monitoring dashboard for remote control via smartphone.
- Result: Reduced water usage by 25% compared to manual operation.

LEADERSHIP EXPERIENCE

CLASS LEADER : Served as the liaison between teachers and student for academic coordination and communication.

CERTIFICATION

1. Internforte certificate for embedded system.
2.

EDUCATION
